### PATENTED SDA® SURROUND TECHNOLOGY

Patented Stereo Dimensional Array (SDA) surround technology creates an expansive soundstage and detailed stereo image, while delivering a natural multi-dimensional sound experience. SDA combined with wireless surround speakers delivers a true 5.1 cinema-quality experience.

### PATENTED POWER PORT® TECHNOLOGY

The Power Port® design smoothly transitions air flow from the speaker into your listening area for deep, extended bass impact while minimising turbulence, distortion and port noise. At the port tuning frequency, loudspeakers equipped with Power Port® have 3dB less port noise than similarly configured loudspeakers without Power Port®.

### PATENTED VOICE ADJUST® TECHNOLOGY

More vocal clarity gives everything you watch added detail, bringing you closer to the action — so it's almost like whoever's speaking is right in the room with you. It's time to listen better and smarter, with Polk Voice Adjust technology driving the experience home.

### PATENTED DYNAMIC BALANCE TECHNOLOGY

We developed a unique, all-inclusive design theory we called Dynamic Balance. Dynamic Balance uses advanced analysis of a design's entire electro acoustic and mechanical system to help select better materials and more efficient geometry. With deep analysis, we can pinpoint and eradicate elements that reduce performance standards. In other words, we can build more realistic-sounding loudspeakers.

POWER PORT®
TECHNOLOGY

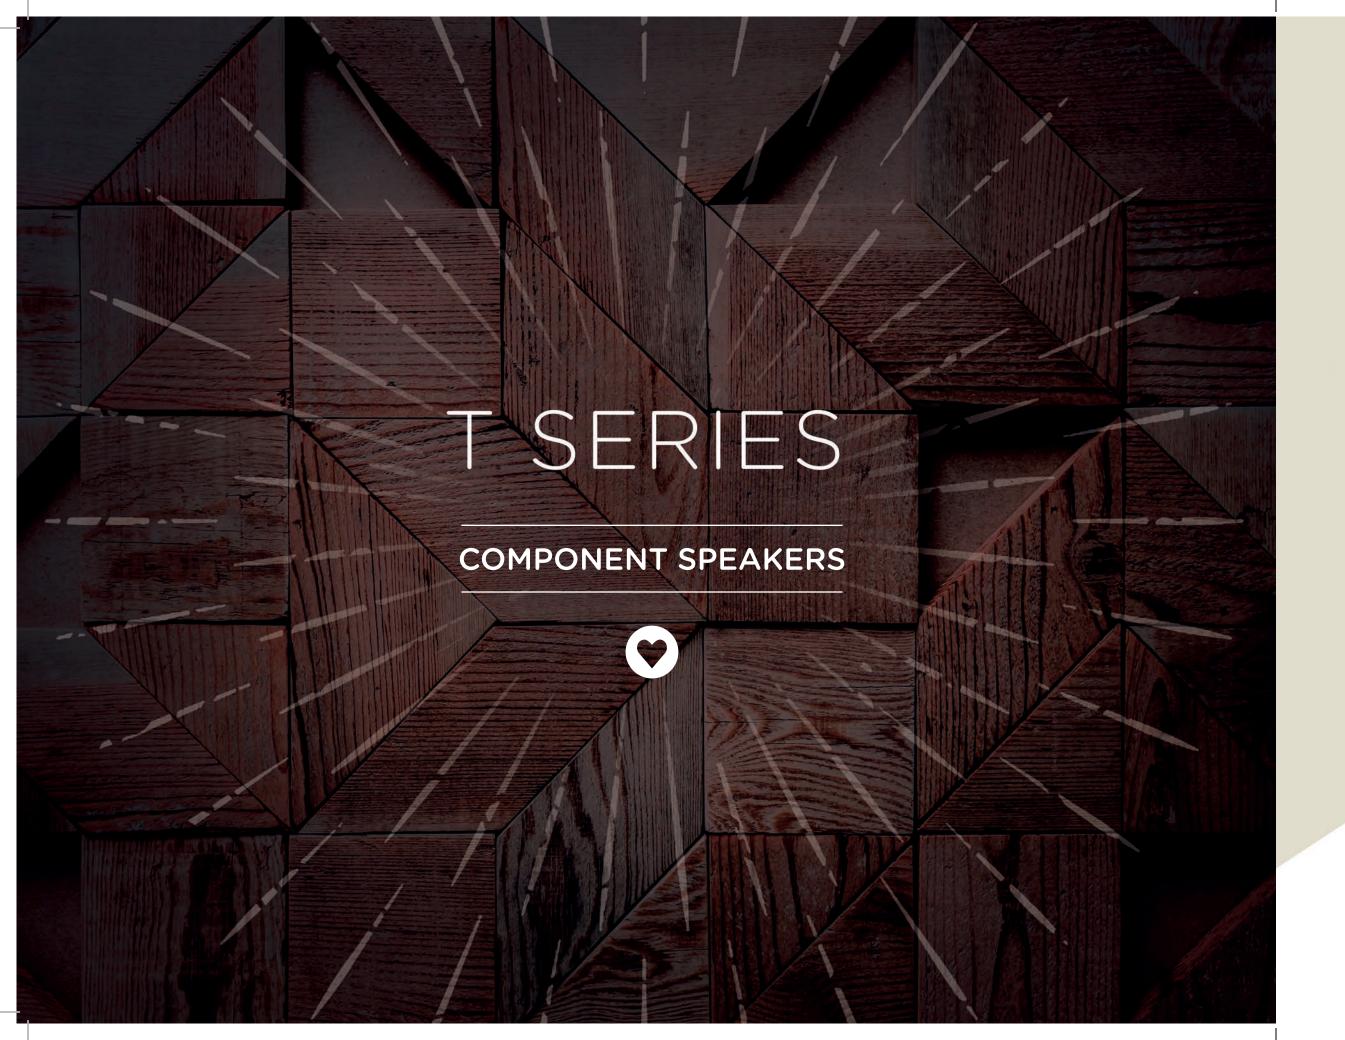

VOICE ADJUST® TECHNOLOGY

OYNAMIC BALANCE® TECHNOLOGY

T SERIES

### GREAT AUDIO SHOULD BE ACCESSIBLE

Take your listening experience to new heights with the T Series. Whether it is your favourite song or you're locked into that brand new action flick or swooning over the latest romantic comedy, this home theatre system expands the boundaries of what entertainment should sound like. What's more, it's easy to setup, supports Dolby and DTS and connects to most home theatre receivers, stereos or home theatre processors.

### T15 Home Theatre and Music Bookshelf Speaker

- Dynamic Balance drivers
- Magnetic shielded enclosures
- Keyhole slot for wall mounting
- Front mounted bass port for deep, punchy bass

### T50

### Home Theatre and Music Floor Standing Tower Speakers

- Use as Front, Rear or Side Speaker in any 5ch or 7ch setup for premium home theatre and music performance
- Polk-exclusive Dynamic Balance drivers and tweeters for wide response and low distortion
- Wide dispersion drivers and tweeters project sound over a wide area so every listener in a room hears expansive, three-dimensional sound

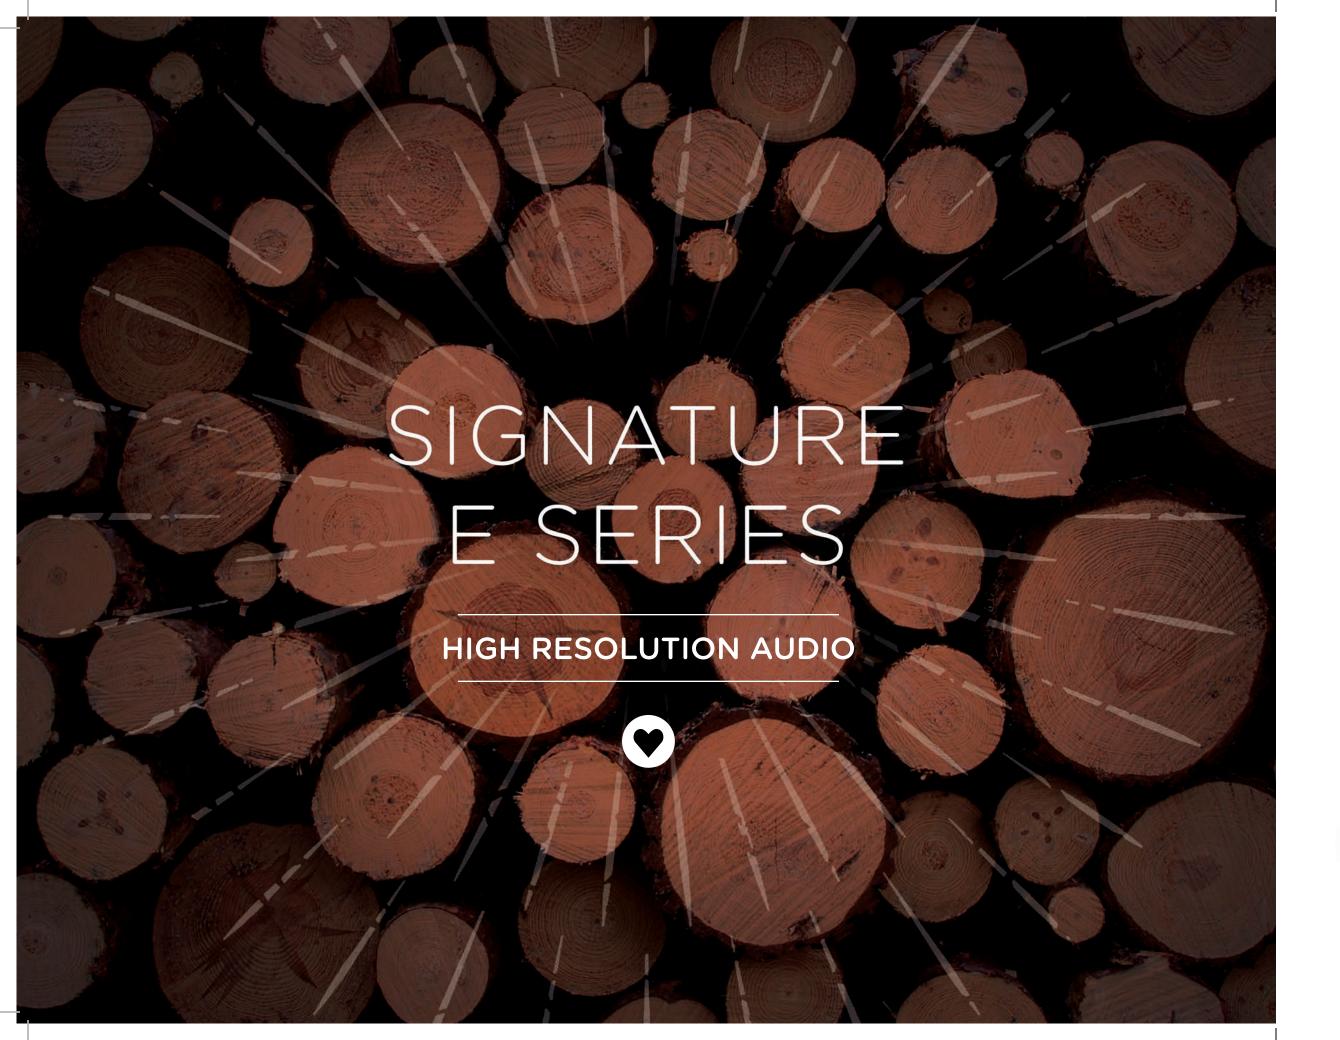

### T30

### Home Theatre and Music Center Channel Speaker

- Delivers premium sound for home theatre and music listening
- Polk-exclusive Dynamic Balance drivers and tweeters for wide response and low distortion
- Wide dispersion drivers and tweeters project sound over a wide area so every listener in a room hears expansive, three-dimensional sound
- 5-way binding posts provide a wide array of secure wire-hookup options
- Timer matched with T50 for seamless sound reproduction.

### REAL HIFI, REIMAGINED

Built to bring the finest musical experience to the comfort of your home, the Polk Signature E Series continues in the Polk tradition of HiFi. You get elevated sound for movies, TV and music in a totally reimagined design. Strong, rigid and acoustically inert enclosures reduce unwanted internal standing waves for less audible colouration. Non-resonant all-MDF construction, with minimum 19 mm-thick baffles, ensures a more lifelike sound that's timbre-matched throughout the range to achieve seamless speaker-to-speaker blending effects in multi-channel systems. Curved edges offer a sensual yet powerful look that's available in a stunning black and white washed walnut finish. But the upgrades don't stop there.

### SIGNATURE SERIES

### HiFi Home Theatre Compact Satellite Surround Speaker

- Use as rear or side speaker in any 5.x, 7.x, or 9.x home theatre configurations
- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (1) 4" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity, and increased dynamic mid-range

### HiFi Home Theatre

### Compact Bookshelf Speaker

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (1) 5.25" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity and increased dynamic mid-range

### S20e

### HiFi Home Theatre Bookshelf Speaker

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (1) 6.5" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity, and increased dynamic mid-range

### 30e

### HiFi Home Theatre Floor Standing Speaker

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (1) 5.25" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity and increased dynamic mid-range

### S35e

### HiFi Home Theatre Slim Center Speaker

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (6) 3" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity, and increased dynamic mid-range

### 550e

### HiFi Home Theatre Floor Standing Speaker

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (2) 5.25" low distortion mica-reinforced polypropylene cones for clean, clear bass, better linearity and increased dynamic mid-range

### S55e

### HiFi Home Theatre Tower Speaker

- 6.5" mica-reinforced polypropylene cones for clean, clear bass, better linearity, and increased dynamic mid-range
- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files

### 60e

### HiFi Home Theatre Floor Standing Speaker

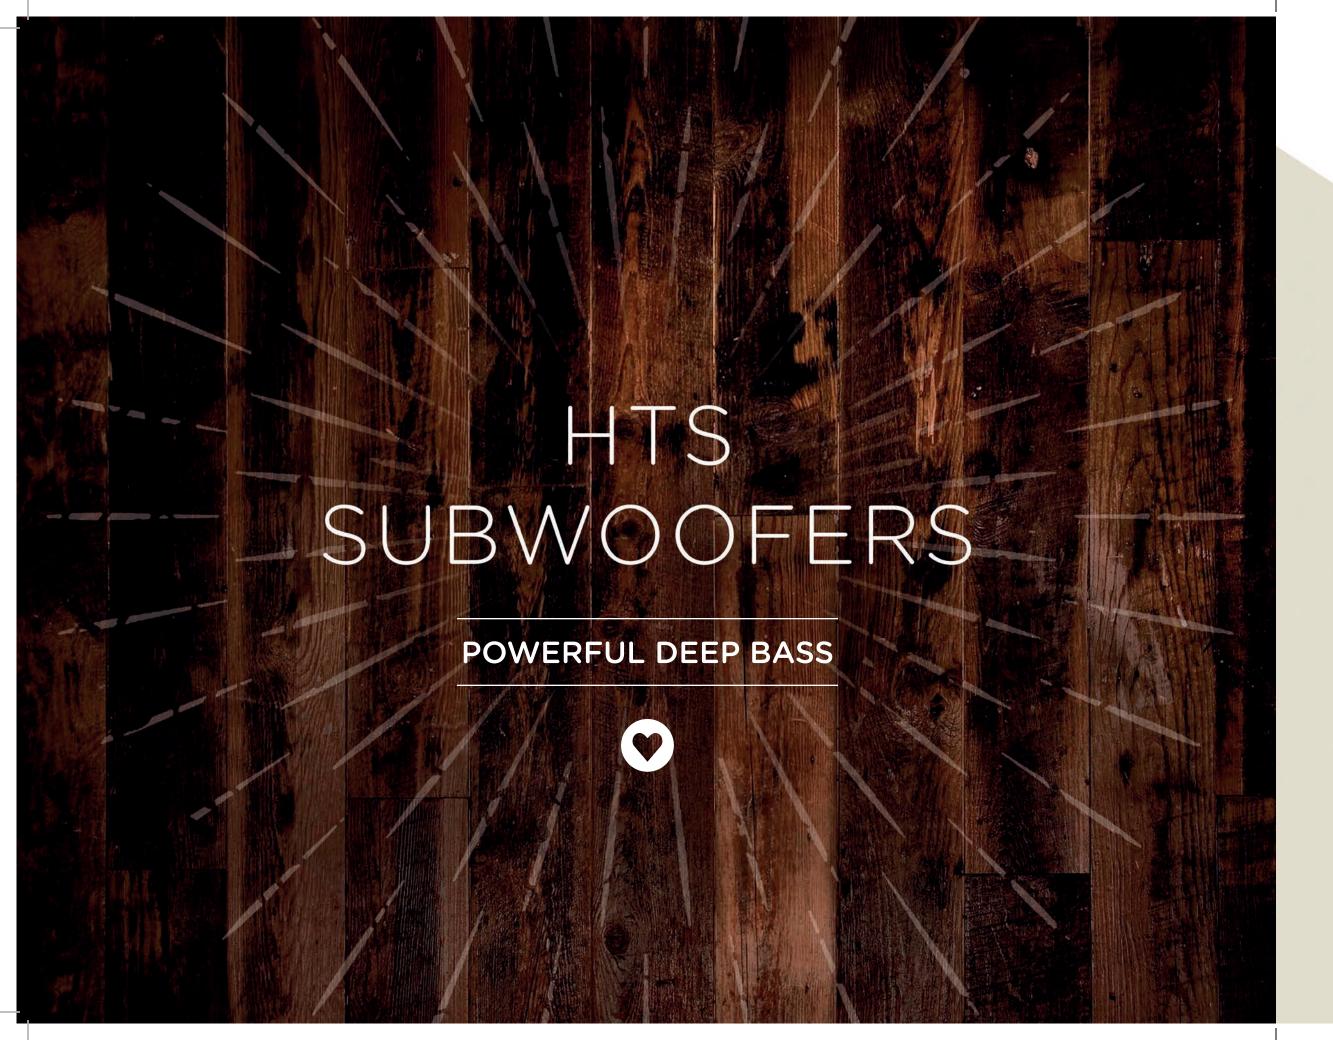

- (1) 1" high-resolution Terylene tweeter for crystal clear high frequency response that perfectly reproduces the latest high-resolution audio files
- (3) 6.5" low distortion mica-reinforced polypropylene cones with four-layer voice coils for clean, clear bass, better linearity and dynamic midrange

# POWER PORT® ENHANCED POWERFUL DEEP BASS FOR HOME THEATRE AND MUSIC LISTENING

The New Polk HTS Subwoofers — available in 10" and 12" long-throw driver sizes — roar to life with that high-power amplification you crave. And with our patented Power Port technology, you get a visceral big bass experience that's always clean and tight.

DYNAMIC BALANCE® TECHNOLOGY

### HTS SUBWOOFERS

### HTS 10

### 10" Subwoofer with Power Port Technology

- Front-firing long-throw 10" Polypropylene Dynamic Balance and Klippel optimised driver
- Floor-firing patented Power Port Technology for deeper bass response and reduced port noise
- Powerful 100W continuous / 200W peak power amplifier

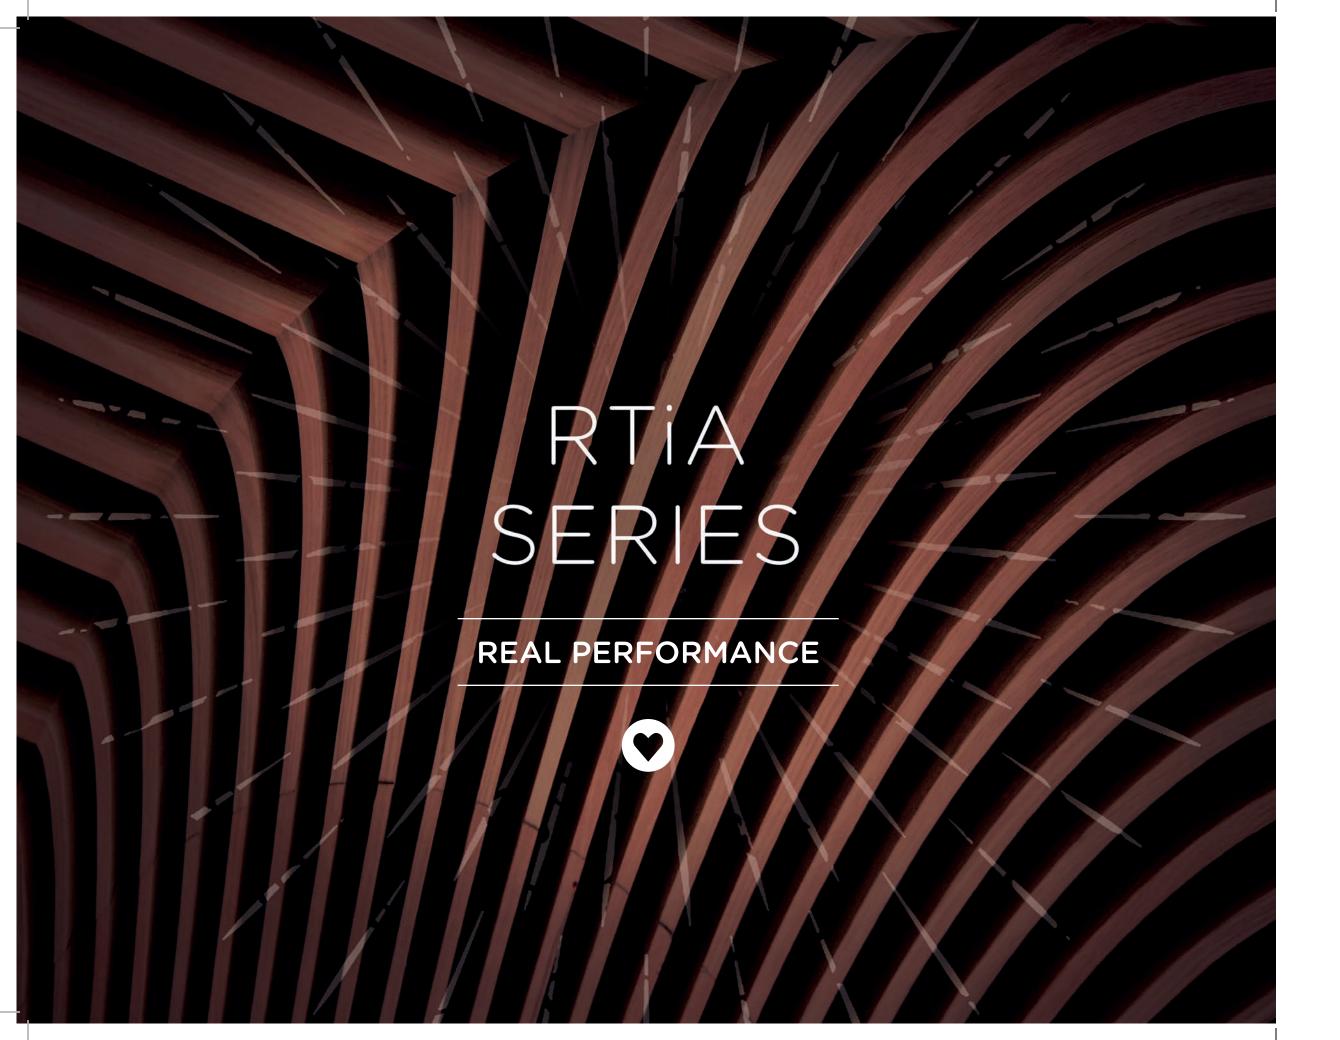

### HTS 12

### 12" Subwoofer with Power Port Technology

- Front-firing long-throw 12" Polypropylene Dynamic Balance and Klippel optimised driver
- Floor-firing patented Power Port Technology for deeper bass response and reduced port noise
- Powerful 200W continuous / 400W peak power amplifier

### LOOKS GREAT, SOUNDS EVEN BETTER

Musical accuracy and big cinema thrills now come in beautifully finished, real wood cabinets. Furnish your home in refined, natural beauty and detailed sound with the RTiA Series.

DYNAMIC BALANC TECHNOLOGY

### RTIA SERIES

### RTiA1

### Bookshelf Loudspeaker

- Classic Polk sound quality in a compact bookshelf speaker
- Custom butyl rubber surrounds and anti-diffraction grilles produce a lifetime of reliable sound
- Polished cherry hardwood veneer cabinet finish

### RTiA5

### Compact Floor Standing Speaker

- Two 6.5" Dynamic Balance® mid/woofer drivers
- One 1" Dynamic Balance dome tweeter
- PowerPort® Plus

### High-performance Floorstanding Loudspeakers

- Featuring Dynamic Balance® transducers
- Three 7" bass drivers
- Two 5.25" midrange drivers
- One 1" high frequency dome tweeter

### RTiA Series High-performance Center Channel Speaker

- Two 5.25" Dynamic Balance® drivers
- One 1" Dynamic Balance dome tweeter
- Asymmetric cabinet design

### RTiA3

### Bookshelf Loudspeaker

- One 6.5" Dynamic Balance® woofer
- One 1" Dynamic Balance dome tweeter
- 150 Watt power handling

### RTiA7

### High-performance Floorstanding Loudspeaker

- Classic Polk sound quality in a floorstanding speaker
- Custom butyl rubber surrounds and anti-diffraction grilles produce a lifetime of reliable sound
- Polished hardwood veneer cabinet finishes with black or cherry trims

### RTiA Series High-performance

### Center Channel Speaker

- Patented PowerPort® bass venting smoothly transitions air flow from the port into your listening area for bigger, more musical deep bass impact
- Proprietary curved enclosure design creates the optimal shear damping for a more rigid, acoustically inert enclosure and minimal cabinet
- Unique angled top allows the CSiA6 to be inverted so you can place the speaker below your TV and still enjoy great sound

### FXiA6

### Bipole Surround Loudspeaker

- One 6.5"Dynamic Balance® driver
- Two 1" Dynamic Balance dome tweeter
- For the ultimate 7.1 home theatre system, simply add a second pair

### FXiA4

### Bipole Surround Loudspeaker

- Dual Dynamic Balance® 1" dome tweeter design
- One 5.25" Dynamic Balance driver
- Selectable bipole/dipole function allows you to configure it to your space and 7.1 systems

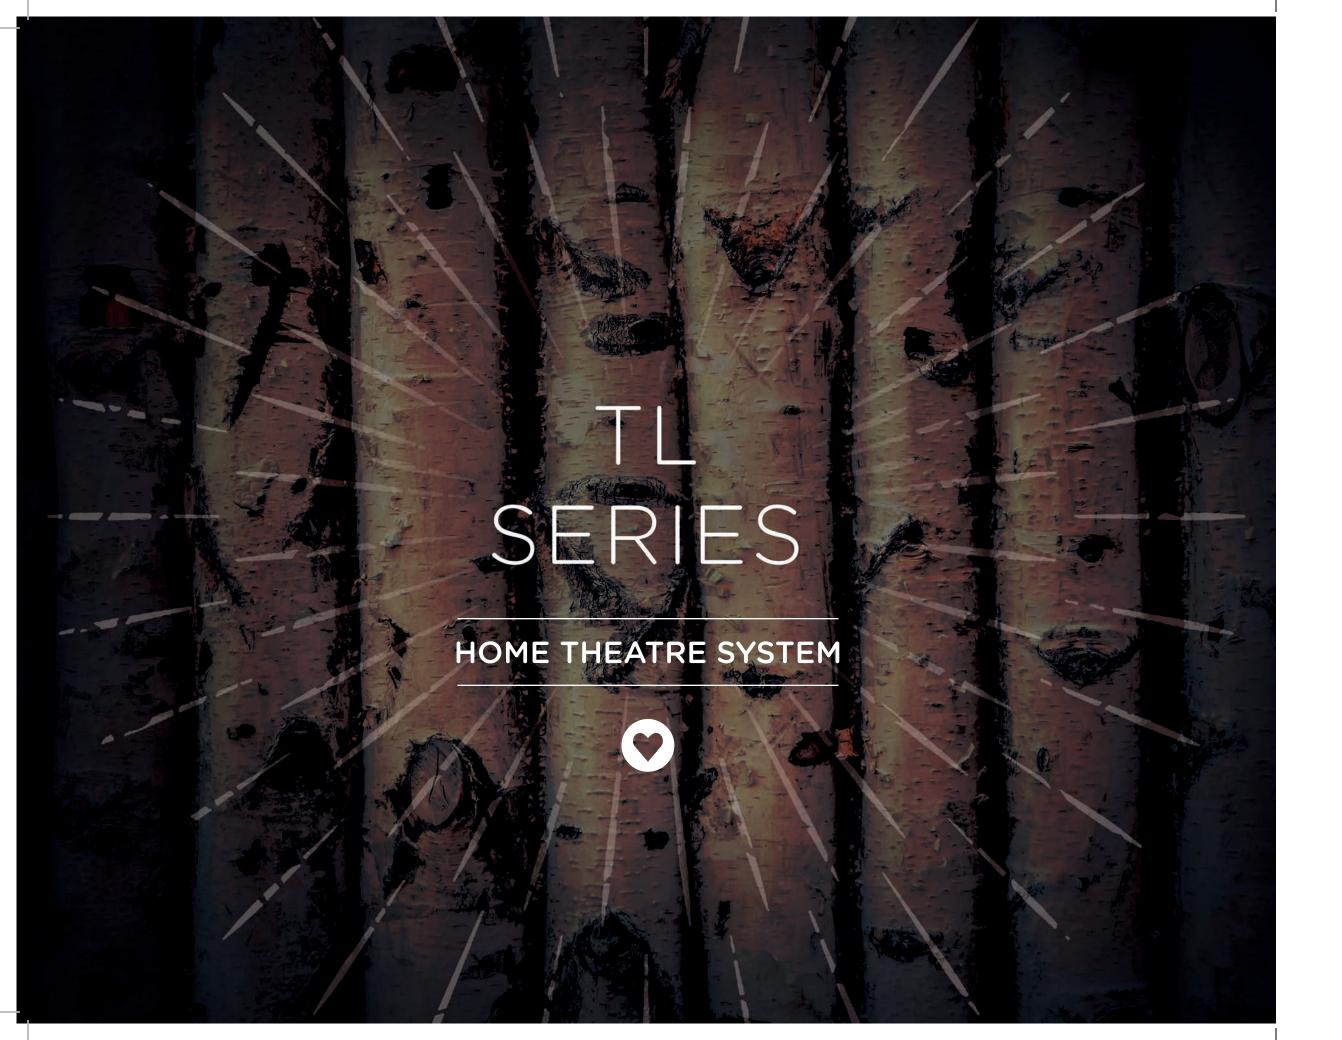

### HIGH-PERFORMANCE, COMPACT SIZE, SURPRISING PRICE

Now, professional surround-sound excitement is easier and more accessible than ever before.

The TL1600 and TL1700 are complete home theatre systems, featuring four TL1 speakers, a TL1 center speaker and a professionally-matched TL1600 powered subwoofer. These systems pack 30 years of Polk's award-winning speaker know-how into compact modern systems befitting of any home

DYNAMIC BALANCE® TECHNOLOGY

### TL SERIES

### TL1600

### 6-piece Home Theatre System

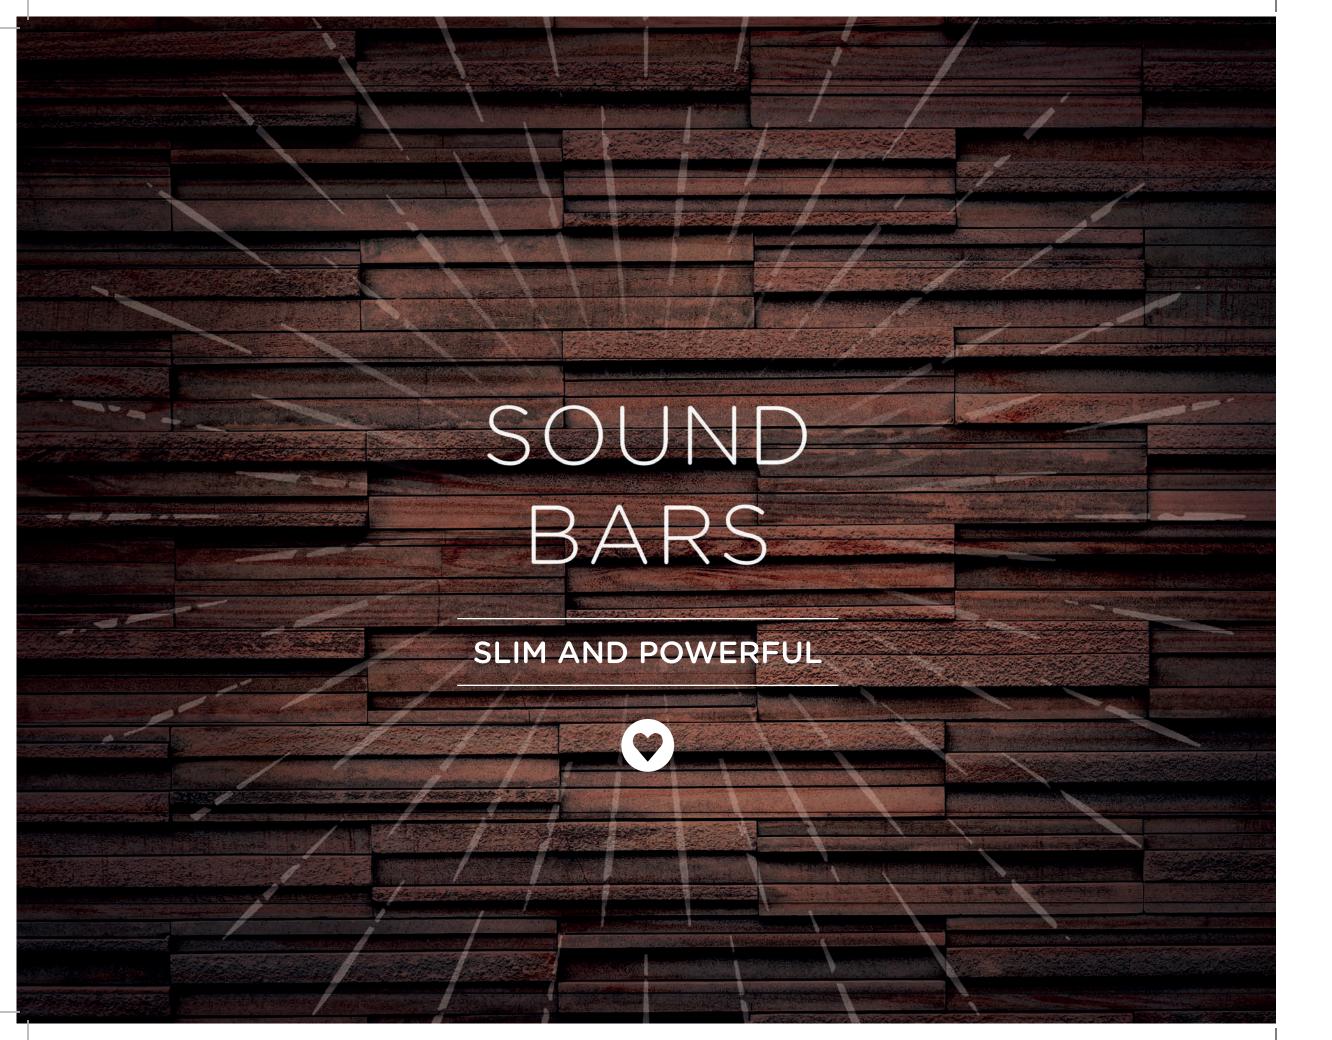

- Silk dome tweeter delivers a classic, clear, detailed Polk performance with pinpoint imaging and smooth highs that are never tiring
- Time Lens® technology aligns the acoustic centers of the tweeter and mid-bass driver on the same spatial plane for superior imaging, while an acoustic lens incorporated in the grille smoothens tweeter frequency response

### TL1700

### 6-piece Home Theatre System

- Silk dome tweeter delivers a classic, clear, detailed Polk performance with pinpoint imaging and smooth highs that are never tiring
- Time Lens® technology aligns the acoustic centers of the tweeter and mid-bass driver on the same spatial plane for superior imaging, while an acoustic lens incorporated in the grille smoothens tweeter frequency response

### BELIEVE IN THE POWER OF POLK

Love the idea of surround but not too keen on the idea of a full component speaker system?

Polk has you covered! Enjoy powerful, room-filling, high-performance surround sound from our wide range of High Performance sound bars.

Compatible with all TV's.

COMMAND BAR

### Command Bar

### The Home Theatre Sound Bar System with Amazon Alexa Built-in

- Performance-tuned driver array, wireless subwoofer and Dolby/DTS surround sound decoding for an immersive, room-filling home theatre experience
- Amazon Alexa enabled integrated far-field microphones to easily control play, pause, volume and source selection with your voice "Just Ask"
- Stream music, control smart home devices, search information, manage audiobooks on Audible, set alarms and Amazon Fire TV\* compatible

### SIGNA SERIES

### Signa Solo

### Universal Home Theatre Sound Bar

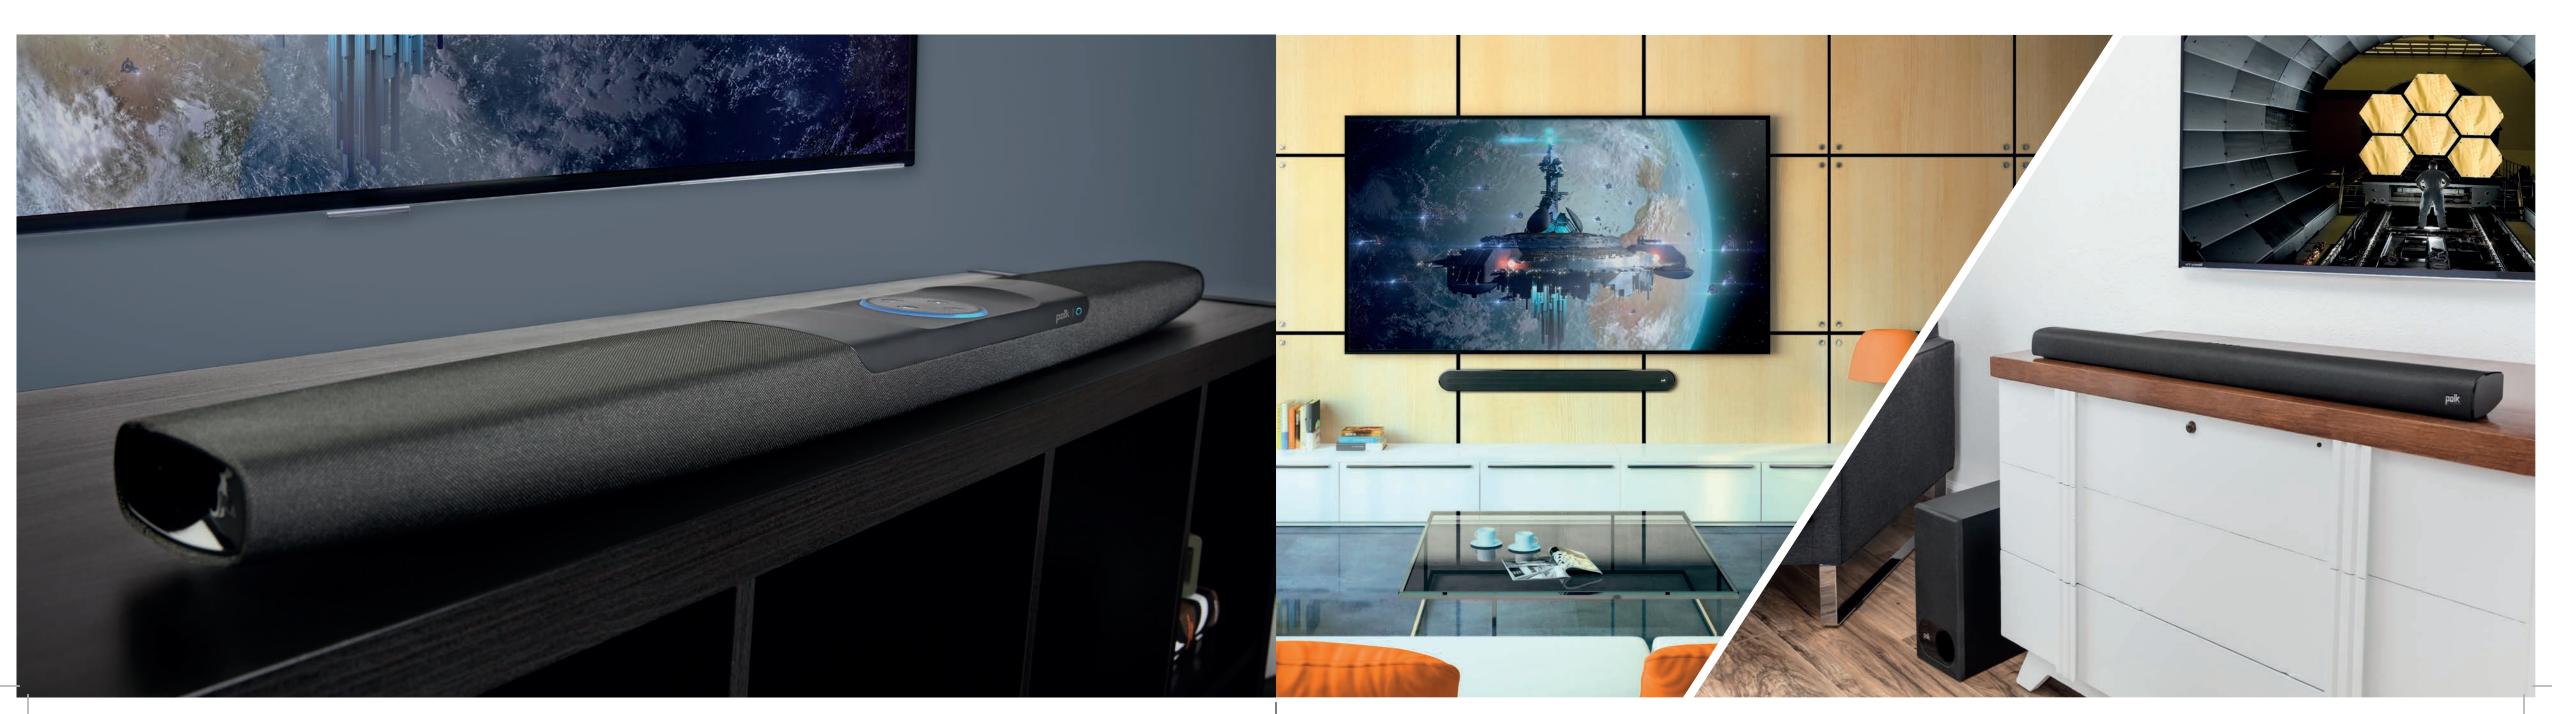

- Elevate your media experience with the Polk Signa Solo universal home theatre sound bar — works with any TV
- Patented SDA digital surround technology creates an expansive, multi-dimensional sound experience
- Patented Polk Voice Adjust technology lets you customise the voice levels to reproduce clear, crisp

### Signa S2

### Universal TV Sound Bar and Wireless Subwoofer System

- Dolby Digital decoding creates incredible room-filling virtual surround sound that easily beats your TV's small speakers
- Works with 4K and HD TVs HDMI cable included. Watch your favourite shows with exceptional contrast and clarity.
- At 2" tall, it fits most spaces easily wall mount it or set it in front of your TV. It won't block your TV's bottom edge or IR remote sensor

### MAGNIFI SERIES

### MagniFi Mini

### Ultra-compact Home Theatre Sound Bar System

- Enjoy immersive home theatre surround sound via 5.1 Dolby Digital
- Ultra-compact sound bar and wireless subwoofer fits tight spaces and still delivers big, room-filling
- Voice Adjust technology dramatically increases vocal clarity and volume level for crystal clear dialogue, no matter what you're watching

### MagniFi MAX

### Maximum-performance Home Theatre Sound Bar System

- Enjoy the sonic power of the Polk MagniFi MAX maximum-performance home theatre sound bar system — works with any TV
- Patented SDA digital surround technology creates an expansive, multi-dimensional sound experience
- Patented Voice Adjust technology lets you customise the voice levels to reproduce clear, crisp dialogue

### MagniFi MAX SR

### Maximum-performance True 5.1 Home Theatre Sound Bar and Wireless Rear Surround Sound System

- Enjoy the sonic power of the Polk MagniFi MAX maximum-performance home theatre sound bar system — works with any TV
- Patented SDA digital surround technology creates an expansive, multi-dimensional sound experience
- Patented Voice Adjust technology lets you customise the voice levels to reproduce clear, crisp dialogue

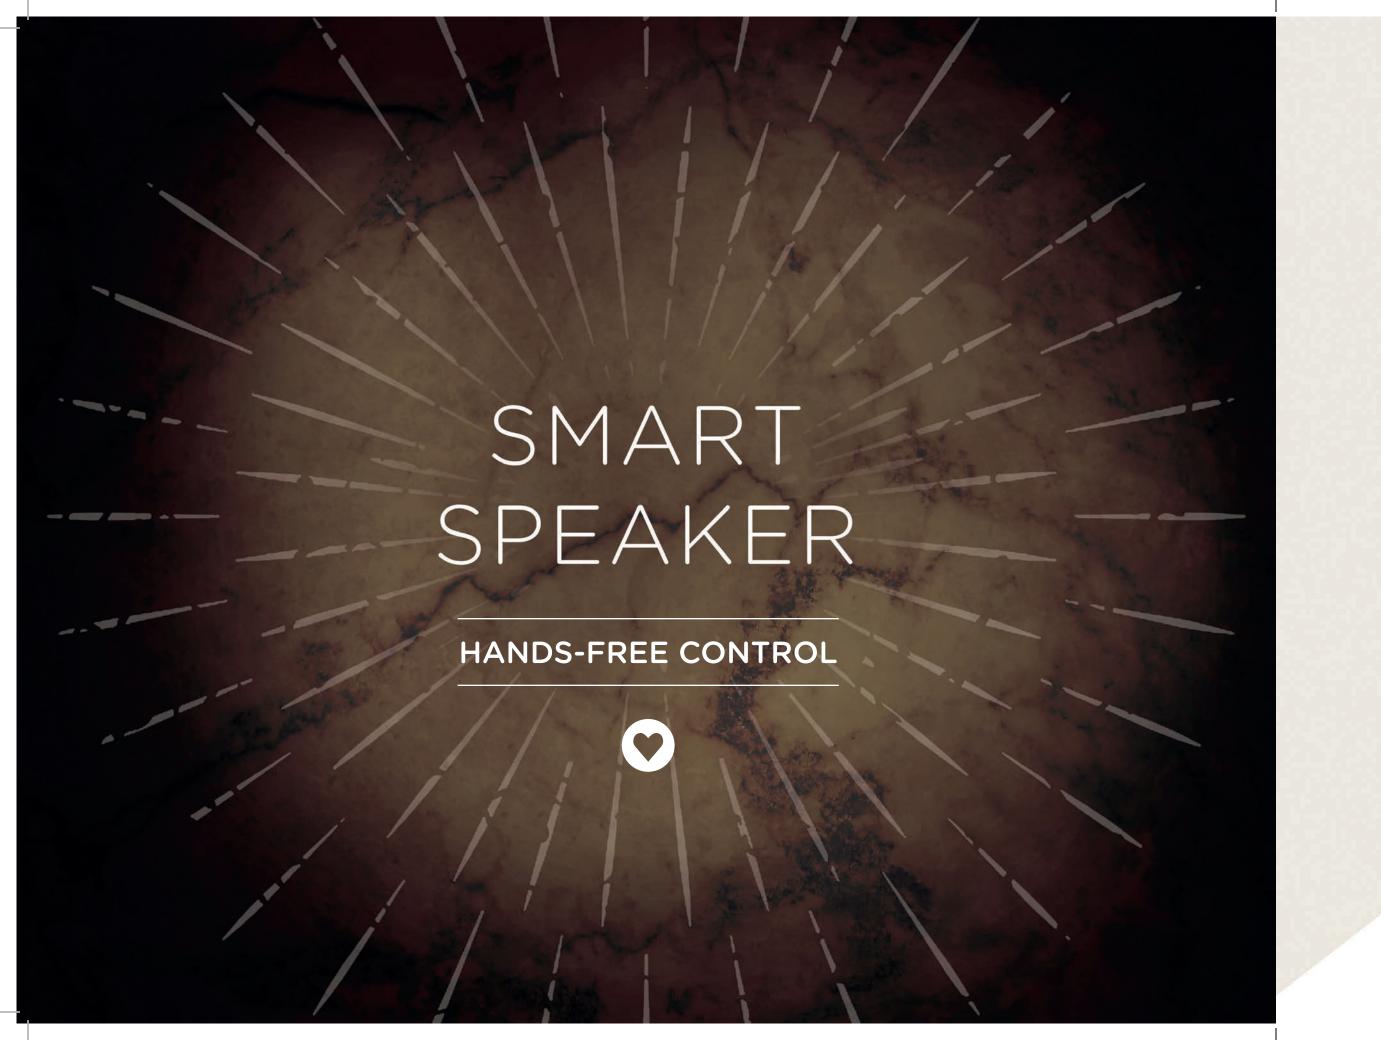

\*Optional SR1 can be added to the Magnifi Max for 5.1 surround Sound.

ASSIST COOL GRAY

YOUR AWARD WINNING GOOGLE ASSISTANT SMART SPEAKER

> ASSIST MIDNIGHT BLACK

## SMART SPEAKER WITH THE GOOGLE ASSISTANT BUILT-IN

Polk Assist - the smart speaker designed for music - with the Google Assistant and Chromecast built-in. Featuring premium sound, Polk Assist is perfect for the music enthusiast. It is also great for the kitchen, bedroom and family room. Ask questions, control your home and fill your home with the joy of music - using just your voice. Polk - Expect Great Sound.

Ask your Polk Assist to play content on your Polk MagniFi Mini, MagniFi Max or any other Chromecast enabled device.

Its easy - just ask!

RT Vanishing Series in-wall and in-ceiling speakers are timbre matched to the premium RTiA speaker line, powering award-winning performance and full-range dynamic audio. Virtually indistinguishable from their surroundings, RT speakers feature exclusive Sheer-Grilles with nearly transparent, ultra-small perforations and are acoustically inert for unimpeded sound and uniform coverage — even in larger rooms.

### 70-RT

### Vanishing RT Series In-ceiling Three-way Loudspeaker

- Broad coverage and dynamic, full-range performance from an extra deep well design with a Cassini oval woofer
- Painted to match your décor, Vanishing Series built-in speakers blend in perfectly with their surroundings
- Innovative features and patented Polk technology in a discrete, easy-to-install package
- Dual Ported enclosure
- (1) 0.75" tweeter
- (1) 2.5" midrange
- (1) 7" woofer

### 80 F/X-RT

### Vanishing RT Series In-wall Loudspeaker

- Timbre-matched to the RTiA Series
- Full-range dynamic audio from a low-profile speaker designed for a flush fit with your wall
- Innovative features and patented Polk technology in a discrete, easy-to-install package
- Dual Tweeter design
- (2) 0.75" tweeters
- (1) 8" Mid/Woofer

### 265-RT

### Vanishing RT Series In-wall Loudspeaker

- Timbre-matched to the RTiA Series
- Full-range dynamic audio from a low-profile speaker designed for a flush fit with your wall
- Innovative features and patented Polk technology in a discrete, easy-to-install package
- Boundary compensation switch adjusts bass performance based on house construction
- High Frequency compensation switch for when speaker is installed in highly reflective environments
- (1) 1" tweeter adjustable by up to 15 degrees for optimal HF dispersion
- (1) 6.5" midrange
- (1) 6,5" woofer

### Vanishing RT Series In-ceiling Loudspeaker

- Timbre-matched to the RTiA Series
- Painted to match your décor, Vanishing Series built-in speakers are virtually indistinguishable from their surroundings
- Vanishing Series RT speakers are timbre-matched to Polk RTi speakers to ensure utterly seamless blending from speaker to speaker in systems that combine traditional and built-in speakers
- Dual Ported enclosure
- (1) 0.75" tweeter • (1) 3.25" midrange
- (1) 9" woofer

### 255c-RT

### Vanishing RT Series Two-way In-wall Center Channel Speaker

- Timbre-matched to the RTiA Series
- Full-range dynamic audio from a low-profile speaker designed for a flush fit with your wall
- Innovative features and patented Polk technology in a discrete, easy-to-install package
- Boundary compensation switch adjusts bass performance based on house construction
- High Frequency compensation switch for when speaker is installed in highly reflective environments
- (1) 1" tweeter adjustable by up to 15 degrees for optimal HF dispersion
- (2) 5.25" Mid/Woofer

### 65-RT

### Vanishing RT Series In-wall

### Rectangular Loudspeaker

- Timbre-matched to the RTiA Series
- Vanishing Series built-in speakers feature our exclusive wafer-thin Sheer-Grille™
- Polk-patented PowerPort bass venting design for design for smoothly transitioning the air flow from the port
- Boundary compensation switch adjusts bass performance based on house construction
- High Frequency compensation switch for when speaker is installed in highly reflective environments
- (1) 1" tweeter
- (1) 6.5" Mid/Woofer

The RT Series packs some powerful technology ideally suited for any home or environment.

### 15° SWIVEL TWEETER HOUSING

For more direct high frequency control, excellent off-axis imaging and more placement flexibility.

### HIGH FREQUENCY COMPENSATION

The Vanishing reflective room compensation feature (by selecting the low setting) lowers the tweeter level to compensate for reflective surfaces. Vanishing reflective room compensation is a custom audio control that cuts the level only in the 4-5kHz range, exactly where reflectivity destroys sound quality. Outside this narrow 1kHz band, the tweeter retains its detailed and accurate high frequency response, for no loss of realistic musical details.

\_\_\_\_

### LOW FREQUENCY BOUNDARY COMPENSATION

The Vanishing wall distance switch is a custom audio control that adjusts the crossover to flatten frequency response without sacrificing deep bass performance, for more lifelike sound and flexible placement.

### LS SERIES

Vanishing Series in-ceiling and in-wall speakers feature our exclusive Sheer-Grilles which have nearly transparent, ultra-small perforations and are acoustically inert for dynamic, unimpeded sound and more uniform coverage even in larger rooms. Vanishing Series speakers are virtually indistinguishable from their surroundings.

### 700-LS

### Vanishing LS Series In-ceiling Loudspeaker

- Timbre-matched to LSiM Series
- Extra deep well design with a Cassini oval woofer mounted above and behind the main driver and tweeter array for broad coverage and dynamic full-range audio performance in a built-in
- Vanishing® Series built-in speakers feature our exclusive wafer-thin Sheer-Grille™
- (1) 0.75" tweeter
- (1) 2.5" midrange
- (1) 7" woofer

### Vanishing LS Series In-ceiling Loudspeaker

- Timbre-matched to LSiM Series
- The full-range 3-way driver array means you get fullsize speaker performance in a built-in
- Vanishing® Series built-in speakers feature our exclusive wafer-thin Sheer-Grille™
- (1) 0.75" tweeter
- (1) 3.25" midrange
- (1) 6" woofer

### Vanishing LS Series In-wall Loudspeaker with Dual 6.5" Drivers

- Polk-patented Power Port® bass venting
- Exclusive wafer-thin Sheer-Grille™, a magnetically-secured grille that protrudes only 7mm from its surroundings
- Boundary compensation switch adjusts bass performance based on house construction
- High Frequency compensation switch for when speaker is installed in highly reflective environment
- (1) 1" tweeter
- (1) 6.5" midrange
- (1) 6.5" woofer

### Vanishing LS Series In-ceiling Loudspeaker

- Use the customised imaging toggle to easily optimise surround effects in any room setup; choose the "Solid" setting for more localised effects, and the "Diffuse" setting for greater rear channel ambience
- Dual offset ring radiator tweeters extend top-end response for incredible details and realistic imaging
- Boundary reinforcement
- (2) 0.75" tweeters
- (1) 8" Mid/Woofer

### Vanishing LS Series In-wall

• Timbre-matched to LSiM Series

Center Channel Speaker

- Enhanced, reengineered ring radiator tweeters extend top-end response for incredible details and realistic imaging
- Vanishing® Series built-in speakers feature our exclusive wafer-thin Sheer-Grille™
- Boundary compensation switch adjusts bass performance based on house construction
- High Frequency compensation switch for when speaker is installed in highly reflective environment
- (1) 1" tweeter
- (2) 5.25" Mid/Woofers

### DESIGNED TO CUSTOMISE

The 80 F/X-LS features Image Optimisation to meet the challenges of any room setup.

### IMAGE OPTIMISATION

Use the customised imaging toggle to easily optimise surround effects in any room setup; choose the "Solid" setting for more localised effects, and the "Diffuse" setting for greater rear channel ambience.

### RING RADIATOR TWEETER

The ring radiator tweeter, usually seen in only the most exotic speakers, features a bullet-shaped phase plug to eliminate horn-loading and improve dispersion. The tweeter faceplate and diaphragm improve efficiency, boosts power handling, increases dynamic range and extends top-end response.

### BASS PERFORMANCE THAT'S OUT OF SIGHT

The least visually intrusive built-in subwoofer on the market today.
